Challenge Hub application

Dear potential member of Challenge Hub,

You'll find below the application form that you should complete in order to apply for a spot in Challenge Hub.

All answers + your CV must be in English.

You can find more information about Challenge Hub on our webpage:

https://master.cri-paris.org/en/challenge-hub

You're registered in a **track**. Your project **MUST** reflect at least **50% of work and methods** specific to your track in order to be validated with the corresponding credits. You need to be able to engage in daily and weekly follow-up of your work.

Please make sure you have all the necessary information before you start filling out the form. Your browser may store the information in the cache, but you will not be able to save a partially filled form. However, **as soon as you fill in all the required fields**, you can submit the form and receive an email with a link that will allow you to access and modify your application. You can continue editing things until the deadline and only the last submission version will be considered.

Looking forward to reading your application!

Challenge Hub Team

By submitting this form, I engage to:

- Pitch my project during the second week of February to a team of evaluators

- Accept recommendations and changes proposed by evaluators

- Inform to Challenge Hub and my track before the 19th February if I decide to do an internship

If my project is selected, I engage to:

- Participate in daily and weekly follow up of my work

- Attend 2 days of training at the start + training sessions at Makerlab

- Document my activities

- Attend a weekly meeting with mentors

- Participate in Demo days every two weeks

- Publish the results of my work(Projects, Articles, Medium, etc.)

- Show the results of my project when required

- Remain in Challenge Hub until the date signaled in my proposal
